

# How much time will you save with Inspection Manager Software?

Inspection Manager™

Manually creating ballooned drawings and dimensional sheets is extremely time consuming, visually unattractive, and provides no automated mistake-proofing.

A major manufacturing company compared their manual manufacturing quality process with the automated Inspection Manager process to determine their time savings. The results were impressive.

Part 1 69 dimensions and 2 cavities		
Process	Manual Process	Inspection Manager
Balloon Print	42 minutes	<b>43 seconds</b>
PPAP Dimensional Sheet Creation and Review	4.38 hours	<b>1.25 hours</b>
Total Time	5.5 hours	<b>1.25 hours</b>

Part 2 199 dimensions		
Process	Manual Process	Inspection Manager
Balloon Print	2 hours	<b>2.5 minutes</b>
PPAP Dimensional Sheet Creation and Review	11 hours	<b>2 hours</b>
Total Time	13 hours	<b>2 hours</b>

**77%**

time saved on part 1

## Savings with Inspection Manager

**85%**

time saved on part 2

**7.625**

hours saved per layout

**480**

hours saved for 63 layouts

**7200**

dollars saved at \$15 per hour

Individual results vary and depend on many factors.

Replacing an existing manual manufacturing quality process with an automated Inspection Manager quality process has been proven to provide a significant time and money savings.
